A Tony DeLucca Mystery

Blurb

After ten years as a Military Police investigator, Tony DeLucca thought coming home would mean peace and quiet. He was wrong.

Days after returning, Tony finds himself at the centre of a murder investigation - not as an investigator, but as the last hope for his new landlord's son. When local musician Derek Paulson is found dead and Ryan White is arrested for the crime, Tony can't shake the feeling that the wrong man is behind bars.

What starts as a favour to a desperate father quickly unravels into something darker. Gambling debts, a missing guitarist with a violent past, and someone who seems just a little too helpful all point to secrets worth killing for.

With Ryan's preliminary hearing looming and the deputy chief determined to shut him down, Tony must navigate a tangled web of lies, grudges, and secrets. The evidence points one way, but his instincts say another. Trusting the wrong one could cost an innocent man his freedom.

A small-town mystery where solving a murder becomes more than a case - it's the beginning of everything Tony didn't know he was looking for.
