

## A Pilgrim's Psalter Of Earth And Light – Paths And Passages

### Blurb

Paths & Passages is the second volume of A Pilgrim's Psalter of Earth and Light, a six-volume hymnary offering contemporary metrical settings of the Psalms for the worship and prayer of the Church. Drawing on Psalms 26–50, this volume explores themes of trust, testing, and the journey of faith through life's in-between places. Here, the psalms are reimagined as singable hymns, accompanied by brief reflections shaped by scripture, tradition, and lived experience. Rooted in the Anglican tradition and attentive to the landscapes of Ireland, these texts are written for both congregational use and personal devotion—inviting readers to encounter the psalms afresh as companions on the way. This work is commended by the Bishop of Meath & Kildare, who has contributed a foreword to this volume. Part of a wider journey through the Psalter, Paths & Passages continues a pilgrimage of prayer that leads, in time, toward light and alleluia.
