

# Sherlock Hamster And The Haunted House Hullabaloo

## Blurb

Ghosts? Ghouls? creepy creatures? Sherlock Hamster ain't scared of them...Or at least, not too much.

When Mrs. Huddlespot's old mansion she recently bought to remodel turns out to be crawling with spooky noises and eerie sights, Sherlock is on the case.

But the deeper he, Celeste, and Ronald Mink explore, the stranger - and more dangerous - the haunting becomes.

Are these ghostly goings-on the real deal, or is something trickier lurking behind the scares?

One thing's certain: Sherlock will need all his smarts (and more than a little courage) to crack this haunted house mystery and get to the bottom of the hullabaloo surrounding the home.
