

Scorching Wings Of An Empty Nester

An empty nester adventure that I wasn't ready for

Blurb

Sometimes the end of a chapter is just the beginning of a different story.

What happens when the house goes quiet and the roles you've played for decades, provider, protector, parent, suddenly shift?

For years, the plan was simple: build a life, raise a family, and stay the course. But when the nest empties and the silence becomes deafening, Jeremy decides to do the unthinkable. He doesn't just look for a new hobby; he walks through a side door into a life he never saw coming.

Scorching Wings of an Empty Nester is more than a travelogue or a memoir of a tropical getaway. It is a raw, inspired by true events, cinematic exploration of identity in the second act of life. This memoir asks a single, haunting question: If you could walk away from everything you know to find out who you really are... would you?

Perfect for fans of immersive creative nonfiction and anyone who has ever felt that their greatest adventure is still waiting to be found.

The side door is open. It's time to see what's on the other side.
