

# 12 Unifying Truths From Awakened Teachers

Core Lessons For A Meaningful Life

## **Blurb**

You know these names : Hay, Schovel Schinn, Tolle, Watts, Walsch, Gangaji, Brown, Ruiz and Campbell.

You have sat with their wisdoms. You have underlined sentences from their amazing books, knowing that there is something true at the centre of all of them.

What are the common truths that none of them would argue with?

This book is the answer.

The answer that may emerge if nine of the most significant wisdom teachers of the modern era sat alongside one another and asked: What do we agree on?

Those twelve truths are what this book contains.

Although these teachers could not be more delightfully different from one another, common truths emerge, as though each of these remarkable human beings were describing the same concepts, in their own words.

You are not a beginner. You do not need to be convinced that the inner life is real or that consciousness matters.

What you may be ready for now is the crystallisation to its irreducible heart.
