A great book by a great author deserves your time and attention. Only downfall of the book is it was too short wish it was longer.

I literally could not put this book down. From the very first chapter, I was hooked, the kind of hooked where you tell yourself you'll read for 10 minutes and suddenly an hour has passed.

The characters felt so real, and the story was full of twists I never saw coming. Every chapter ended in a way that made me need to know what happened next.
