

# The God Breakers – Assassins Of The Anunnaki

## Blurb

Marcus watched as his wife Emilia fell from Coit Tower - murdered by an ancient cult worshipping Sumerian gods. Emilia was their assassin. She kept secrets.

Alien gods - the Anunnaki - seeded the human race 100,000 years ago. They sleep now in the halls of Amenti, waiting to rule again.

Using Plunge, an elixir tainted with the blood of gods, Marcus gains eight minutes of strength, speed, and rage. They call it The Mind Breaker. Each dose brings Marcus closer to oblivion as he pursues Sara - Emilia's secret daughter. His daughter.

One step behind the cult that keeps her and controls her mind.
