

The Heart That Died

A Charlie Durant Investigation

Blurb

The past has come knocking on the door of Private Investigator Charlotte 'Charlie' Durant.

Rose Chamberlain is a dame in distress - a young woman haunted by dreams she didn't choose and pursued by shadowy forces desperate to get her signature on a magical contract she doesn't understand. When Rose walks into Charlie's office, she brings danger with her. The kind of danger that doesn't stay in the shadows

To keep her client from becoming a sacrifice to forces that should never be named out loud, Charlie will have to put her own hard-fought redemption on the line - and come face to face with a blood-stained history she's spent decades trying to outrun.

And a vampire has a lot of history
