

Rise Of The Wolf

For One To Rise, Others Must Fall

Blurb

Lucius Antonius is not to be trusted. The Empire is at war with itself and many claim to have the loyalty of this man. Yet behind his smiles and his charming demeanour, there sits a plan. A plan and a will to see it done.

He is salvation, but for Whom? The Emperor, the Thirteen, the North or just his own? All seek something from him, some way of claiming the power they feel they are owed, but it is not a question of deserving this power. Rather, it is a question of whether Lucius will obey or consign them to the dusts of history.

He is a wolf, after all, and his star is on the rise.
