

Montana Blood Legacy

He has nothing to lose. She has everything to protect.

Blurb

A land worth fighting for. A love worth dying for.

When Heather McDonald arrives in 1870s Montana, she expects to inherit the peaceful Campbell Ranch her father left behind after his death. Instead, she discovers a brutal truth: her father was murdered. A powerful and corrupt businessman, Aldrich Slade, is determined to seize the Campbell Ranch at any cost. Believing Heather's father had no heirs, Slade thought the land would fall easily into his hands. Heather's arrival however shatters his plans and paints a target on her back.

Heather's journey into Montana turns deadly when her stagecoach is attacked by Apache raiders. Salvation comes from Kane Garrett, a solitary army scout who roams the frontier doing dangerous jobs that no one else will do. Kane has no intention of getting involved in anyone's troubles, but the brave Scottish heiress he rescues awakens a part of him he thought long buried.

As Heather fights to protect her inheritance, Slade unleashes intimidation, sabotage, and violence to force her off the land. Kane becomes Heather's fiercest defender, even as the growing bond between them threatens the walls he's built around his heart.

In a land ruled by greed and gunfire, can Heather and Kane stand against a man who will stop at nothing to claim what isn't his?
