

Jane Bond - Some Assembly Required

Jane Bond Book 1

Blurb

An alien pilot. A chocolate cake. A doomed relationship or two.

Jane's life as an elementary school librarian gets sidetracked when she digs up the AI pilot of a 140-million-year-old spacecraft. Now, she's running all over the world looking for spaceship parts, falling in and out of love and trying to keep her friends from thinking she's going crazy.

To make matters worse, the ship she's recovering is starting to sound a bit more like the Death Star than the Millennium Falcon. When did life get so complicated?

Join Jane for high-tech gadgets, action, adventure, and an alien intelligence for a sidekick, because it's just as much fun to watch her get into trouble as seeing her get out of it!
