

The Seventh From Atlantis

Blurb

The morning Owen Rhyne learns his mentor is dead, an email arrives from the dead man.

Attached is a photograph of an ancient tablet. The message contains a single instruction:

Do not translate the words first. Measure them.

Then a stone disc arrives in Beirut - and someone comes looking for it.

Owen has already risked his career chasing a pattern nobody else believed. This time, the evidence leads him and artifact conservator Maya Sayegh toward the monumental ruins of Baalbek, a fractured secret society, and a medieval account of Knights Templar who encountered something they dared not surrender.

Across damaged inscriptions and hidden records, one mystery keeps returning: the Seventh.

Who - or what - survived the world remembered as Atlantis?
