

Blurb

The machinery of the city was done with Elias. But it had set the gears of fate in motion for him.

Generations from now, in a grim, dog-eat-dog mega-city that has long since dropped any facade of pretending to care about the welfare of its millions of inhabitants - seemingly more concerned with its dead than its living - Elias never wanted much. Just to earn enough credits every week to survive the grind of city life, and keep the people he owed off his back.

His latest run of bad luck carries him onto a rain-soaked rooftop, four storeys up, seemingly with nowhere left to go.

What happens next isn't what he expects - and it probably isn't what you'd expect either - a quiet, unmoored reckoning with everything his struggling existence had become, carried somewhere far stranger, far larger, than anything the sprawling, uncaring city he'd always fought the odds just to survive in, had ever let him imagine.

The Infinite Velvet Dark is a short, aching work of existential fiction - about a man who spent his whole life running in one form or another, and what he finds waiting for him when he runs out of road.
