The Guardians Of The Winter Solstice

Blurb

It's been six years since a civil war between the Guardians of Justice and the Arachnid Tribe greatly reduced the Saldana Army. Aggressive efforts have been made to strengthen the Guardians' numbers as Saldana is vulnerable to an enemy attack, efforts that ultimately caused a great divide between the country's two territories in terms of resources and security. Yet for a former soldier named Newell, everything is beginning to fall in place until he's paid a visit by his estranged nephew Maxwell, and everything begins falling apart. Despite this, or possibly because of it, they soon cross paths with two renegade soldiers and a bounty hunter as an ominous threat to the North Territory of Saldana is unveiled – one set to take place on the longest night of the year... Winter Solstice.
